

# Burger King & talentReef

## Recruit 2.0

React instantly to hiring needs by reaching the best possible applicants via social media, search engines, job boards (Indeed, Glassdoor and Google Jobs), referrals, and text and email campaigns.

## Onboarding

Automate the time consuming onboarding process by digitizing all new hire paperwork such as Form I-9, e-Verify, all Federal forms, direct deposit forms, your employee handbook, etc. This mobile friendly process reduces administrative costs, ensures compliance and optimized tax credit processing and background checks.

## Applicant Tracking

Eliminate the need for a paper application to get job seekers in the door as quickly as possible.

## Employee Engagement

Employee engagement and training is key to retention. Digitize the employee performance process, including warnings and goal setting, while also digitizing training content to assign and track training courses.
